

## **Automated External Defibrillator ( FA0004)**

An Automated External Defibrillator when used by a trained operator can improve the casualties chance of survival by 75%. Although in an emergency training is not essential for anyone to use an AED it would be desirable and again although prior experience as a First Aider is not a requirement it is useful.

### **Course Objectives**

To provide the delegate with the confidence and understanding of dealing with a heart attack victim and the ability to use an AED

### **Duration of the Course**

Contact time, excluding breaks is 3 – 4 hours, which will include CPR refresher training.

### **Validity of the Qualification**

### **Pre-requisites**

First Aid Qualification is desirable although not essential

### **What will they learn?**

This candidate will be trained to:

- Basic Life Support (CPR for adults)
- First aid priorities
- Managing an incident
- Use of the AED
- Resuscitation
- Treatment of an unconscious casualty
- Treatment for a heart attack
