

## > THE BRIEF

Scomac Services was employed to carry out the mechanical and electrical services installation on a new build 4-storey office block (2500m<sup>2</sup>) in Buckinghamshire.

## > CHALLENGES

The design and installation of VRV heat pump condensers within an enclosed car park area meant that special attention had to be given to the air distribution and external noise restraints as close to residential buildings.

## > THE SCOMAC SOLUTION

- VRV system
- BMS & controls
- Tempered fresh air ventilation
- Toilet & kitchen fit-outs
- Mains supply and sub mains distribution
- Small power
- Lighting
- Fire alarm system
- Voice and data installation
- Door entry system

## > CONTRACT VALUE

Circa £500,000

## > CONTRACT PERIOD

11 Months
